Look at the tables in each pdf but only look at 2007 to 2009.

Make rows the site name plus the date (most are formatted q1/07 but I want them to be formatted in a separate col from names(so one col for names and one col for date) and Q1 should be jan thru march, Q2 April thru june, Q3 july thru Sept, Q4 Oct thru dec. for data that is formatted in a quarter type just input the same value for each month in the quarter.

Make cols form the list no edits other than make sure there is a reactor name col and date col.

Make vals the indicator value in the table on the pdf

Look at the tables in each pdf but only look at 2007 to 2009.

Make rows the site name plus the date (most are formatted q1/07 but I want them to be formatted in a separate col from names(so one col for names and one col for date) and Q1 should be jan thru march, Q2 April thru june, Q3 july thru Sept, Q4 Oct thru dec. for data that is formatted in a quarter type just input the same value for each month in the quarter.

Make cols form the list no edits other than make sure there is a reactor name col and date col.

Make cell value the indicator value in the table on the pdf
